9. Roundtable:

Mission Statement
The San Diego ReUse and Repair Network will promote reuse and repair as an adjunct to recycling, and as an alternative to landfilling throughout the San Diego region. We will support reuse- and repair-related industries and help create an infrastructure by 1) sharing information and best practices, 2) facilitating a network for businesses and non-profits for collaborations, and 3) educating and engaging our members and the general public to utilize and advocate reuse and repair.

Current Goals & Objectives
- Create and expand the repair and recycling/reuse databases we have put in place
- Promote repair and recycling/reuse businesses, practices, and informational databases
- Educate non-profits and thrift organizations on ways to find markets for goods they previously landfilled
- Sponsor and attend events to engage the public and various sectors in reuse/repair activities and mindsets
- Encourage co-location of reuse and repair industries to create synergies and ease of access
